

CAGP Québec Chapter Mentorship Program

Mentee Application Form

The CAGP Mentoring Program offers its members who have less than three years of experience in planned giving (mentee), the opportunity to be guided by an experienced person (mentor) in order to develop their skills and abilities and even achieve professional goals.

The mentee must specify their goals at the beginning of the pairing and validate with their mentor the possibility of achieving them. The role of a mentor is different from that of a coach or consultant. The mentor shares his experience, teaches concepts, but above all, he guides them through their evolving thought process. Consequently, its role is not to make a diagnosis to improve the functioning of the organization or to carry out the work.

In a few lines, explain the reasons why you want to be matched with a mentor? (e.g. developing a planned giving program, taxation, different types of giving, etc.)
