Meena Das

Meena Das (she/her) is the founder, consultant, and facilitator of two practices - [NamasteData](#) and [Data Is For Everyone](#). NamasteData focuses on advancing data equity for nonprofits and social impact agencies, while Data Is For Everyone provides invaluable tools and resources to help people learn how to navigate the world of data.

Meena is a specialist in designing and teaching equitable research tools and analyzing engagement. She supports nonprofits in three critical areas: data collection assessments, community surveys, and staff workshops on improving data equity, incorporating data collection, visualization, and human-centric algorithms.

You can learn more about her work through the bi-weekly newsletters, '[Dear Human](#)' and 'data uncollected', or directly connect with her on LinkedIn: http://www.linkedin.com/in/meenadas.
