

Patricia Ward

Patricia Ward is the National Project Manager for Estates Administration with Heart and Stroke Foundation of Canada. In this role, Patricia and her team are responsible for the administration of all estate gifts to Heart and Stroke in Canada. Working in the area of Estates and Trust exclusively, for over seven years, has provided her with opportunities and experience dealing with a variety of issues, circumstances and court proceedings. Patricia has worked in the charitable sector for the last 15 years and is a member of the Toronto Chapter of CAGP. Patricia's greatest achievement, in her opinion, is her four children who she spends time with whenever she can. In her spare time she likes to travel, read, attend concerts and play tennis.
