GERIATRIC PSYCHIATRIST OPPORTUNITY

Penticton, British Columbia

Excellent opportunity for a Geriatric Psychiatrist to join the Psychiatry department at Penticton Regional Hospital.

"I've been working at Interior Health MHSU since 2016 and have found the experience very rewarding. Our programs have many new physicians and staff and are continually increasing to meet the growing population needs. As a result, services are constantly being expanded. These developments have afforded many opportunities to contribute and to take part in shaping mental health services provided here. I would strongly encourage anyone interested in joining a vibrant and growing medical community with a great work life balance to consider the opportunities throughout the Interior!"

~ Dr. Jeff Douziech, MD, FRCPC Psychiatrist
